SNM-1999

70-3073

Amendment No. 11

required to be Kerr-McGee Corporation employees, may be consultants. The licensee's determinations as to whether the above conditions are met will be made by the ARC. The licensee shall provide in an annual report to NRC describing all such determinations made pursuant to the condition, including a summary of the safety and environmental evaluations of each such action. As part of this annual report, the licensee shall include any SDP and RSP pages revised pursuant to this condition. The records of each determination shall be retained until license termination. The retained records shall include written safety and environmental evaluations, made by the ACR, that provide the basis for determining whether the above conditions are met.

- Q. During the remediation operations, liquid and airborne effluents will be sampled and analyzed to ensure that releases meet the requirements of 10 CFR Part 20, Appendix B.
- R. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with statements, representations, and conditions contained in a letter dated September 25, 1992, as supplemented on December 18, 1992, and August 26, 1993.
