Dear Sir:

Subject: Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR 50
Docket No. 50-289
Supplement - License Amendment Request No. 285
"Changes to Clarify Authority to Possess Radioactive Materials Without Unit
Distinction"

This letter provides a supplement to TMI-1 LAR No. 285. This supplement is in response to a phone conversation held on November 2, 1999, with NRC staff discussing possible wording changes to the requested TMI-1 license amendment. These wording changes are an acceptable alternative to our previous proposal. Enclosure 1 provides this alternative language.

The no significant hazards consideration analysis included in our June 29, 1999 submittal bounds any changes made in this RAI response, thus no change to our 10 CFR 50.92 analysis is required.

Also enclosed is a Certificate of Service, certifying service to the chief executives of the township and county in which the facilities are located, as well as the designated official of the Commonwealth of Pennsylvania, Bureau of Radiation Protection.

If any additional information is needed, please contact Adam W. Miller of GPUN at (717) 948-8128

Sincerely,

James W. Langenbach
Vice President and Director, TMI
