In the Matter of
CAROLINA POWER & LIGHT COMPANY
(Shearon Harris Nuclear Power Plant)
Docket No. 50-400-LA, ASLBP No. 99-762-02-LA

Dear Ms. Curran:

Pursuant to my e-mail to the Licensing Board and counsel, I have served hard copies of the NRC Staff's Third Supplemental Response to Orange County's First Set of Discovery Requests to the NRC Staff and the NRC Staff's First Supplemental Response to Orange County's Second Set of Discovery Requests to the NRC Staff on the service list. Included in that mailing is an additional reference, "Containing The Atom, Nuclear Regulation in a Changing Environment," by J. Samuel Walker. The cited portion of the book contains references to various documents in the Public Document Room which relate to the development of the General Design Criteria in the 1960's and 1970's.

Sincerely,

Susan Uttal
Counsel for NRC Staff
