SUBJECT: UPDATE TO PREVIOUSLY SUBMITTED RELAP5 ANALYTICAL ASSUMPTIONS
FOR APPENDIX R - VERMONT YANKEE NUCLEAR POWER STATION
(TAC NO. MA6862)

Dear Mr. Wanczyk:

This letter acknowledges your October 12, 1999, letter providing an update to previously submitted RELAP5 analytical assumptions for 10 CFR Part 50, Appendix R. Your letter stated that your previous analytical assumptions were submitted in response to our questions associated with our August 12, 1997, Safety Evaluation Report dealing with Appendix R exemptions for Vermont Yankee.

We have reviewed the information provided in your October 12, 1999, letter and concluded that it does not affect the analytical bases used by the Nuclear Regulatory Commission in the August 12, 1997, Safety Evaluation Report and the associated Appendix R exemptions. This completes our action on TAC No. MA6862.

Sincerely,
