Dear Sir:

Subject: VIRGIL C. SUMMER NUCLEAR STATION  
DOCKET NO. 50-395  
OPERATING LICENSE NO. NPF-12  
COMMENT ON DG-1080, PROPOSED REVISION 3 TO  
REGULATORY GUIDE 1.149

Gary J. Taylor  
Vice President  
Nuclear Operations

South Carolina Electric and Gas Company has the following comment on proposed revision 3 to Regulatory Guide 1.149, "Nuclear Power Plant Simulation Facilities for use in Operator Training and License Examinations".

Section C.4 states that "The licensee may reference the licensed operator training schedules of the accredited training program as adequate submittal of a schedule for conduct of approximately 25% per year of the performance tests as required by 10CFR55.45.

We assume, if all scenarios are currently approved, that a complete re-validation is not required. Proper documentation of validation is that they are approved scenarios. If you have any questions, please call Tom Howell of my staff at (803) 931-5090.
