Ms. Betty Wright
Office of International Programs
U.S. Nuclear Regulatory Commission
Washington, D.C.

Dear Ms. Wright:

I attach for your kind consideration an application to export uranium as uranium hexafluoride (UF₆) to Korea for use in commercial Korean reactors. Specifically, the UF₆ will be used as enriched reload fuel in the Young Kwang Nuclear Power Facilities, Units 1,2,3, and 4; and Kori Nuclear Power Facilities, Unit 3. These facilities are owned by Korea Electric Power Corp. Additionally, some natural UF₆ will be used as axial blanket materials in these same reactors.

In compliance with the new NRC export license application requirements please find enclosed the application fee of \$1,700.

Please do not hesitate to contact me should you require any additional information in connection with this request.

Sincerely,

Alison Bowder
International Affairs Specialist
