November 9, 1999

SUBJECT: BEAVER VALLEY POWER STATION, UNIT NO. 2, ENVIRONMENTAL ASSESSMENT AND FINDING OF NO SIGNIFICANT IMPACT RELATED TO THE REVISION OF RADIOLOGICAL DOSE CALCULATIONS FOR LOCKED ROTOR ACCIDENT (TAC NO. MA0746)

Dear Mr. Cross:

Enclosed is a copy of the Environmental Assessment and Finding of No Significant Impact related to your application for amendment dated January 29, 1998, as supplemented by letters dated November 9, 1998, and June 14, 1999. The amendment authorizes changes to the Updated Final Safety Analysis Report to reflect revisions to the radiological dose calculations for the locked rotor accident analysis. This revision of the calculation was performed in order to incorporate more conservative assumptions than those used in the previous analysis for a postulated locked rotor event.

The assessment is being forwarded to the Office of the Federal Register for publication.

Sincerely,

Original signed by:

Daniel S. Collins, Project Manager, Section 1
