19 AUG 1999

MEMORANDUM FOR Lieutenant Colonel Stephen W. Brooks, Chief of Staff, U.S. Army
Soldier, Biological, and Chemical Command, Aberdeen Proving
Ground, MD 21010-5423

SUBJECT: Transfer of Jefferson Proving Ground (JPG) Nuclear Regulatory
Commission (NRC) License from TECOM to SBCCOM

1. References:
 - a. Meeting and FONECOMs between Mr. Cliff Wendel, SBCCOM, and Mr. Dal Nett, this HQ, various dates, SAB.
 - b. Nuclear Regulatory Commission (NRC) License No. SUB-1435, Docket No. 040-08838.
2. Request SBCCOM take action necessary to transfer NRC License SUB-1435 from this command to SBCCOM.
3. This transfer may be accomplished by a letter request from SBCCOM to the NRC. The transfer procedure was discussed at referenced meeting; a sample transfer request letter has been provided to Mr. Wendel. We will provide any additional assistance required to facilitate the license transfer. We will also transfer any records you require to administer the license.
4. The license authorizes the Army to possess depleted uranium (DU) in the form of spent munitions located in the test range impact area of JPG. NRC is currently working on the Army's request to terminate the license.
5. It is also requested that SBCCOM assume responsibility for Environmental Radiological Monitoring (ERM) program at JPG. This is a semiannual environmental sampling program required by the license to ensure that the DU is not moving out of the controlled impact area. Funds for the ERM program have been transferred to SBCCOM to be available on 1 Oct 99. CHPPM has been conducting the ERM program for TECOM; if you wish to continue using their services, please contact MAJ Gary Matcek at 5-8396 and arrange for a transfer of funds (\$25K) to pay for the next required sampling scheduled for Oct 99.
6. The TECOM POC is Mr. Robert A. Aaserude, AMSTE-SM-S, office email sms@tecom.army.mil, personal email aaseruder@tecom.army.mil, 3-1308, FAX 3-3735.

FOR THE COMMANDER:

 THOMAS W. RESAU
 Colonel, GS
 Chief of Staff
