Quad Cities Nuclear Power Station, Units 1 and 2
Facility Operating License Nos. DPR-29 and DPR-30
NRC Docket Nos. 50-254 and 50-265

Subject: Proposed Indirect Transfer of Control Involving Facility Operating License Nos. DPR-29 and DPR-30, Pursuant to 10CFR50.80

Reference: Letter from R.M. Krich (ComEd) to NRC "Notification of a Change in Shareholders at the Holding Company Level for MidAmerican Energy Company," dated November 2, 1999.

In the referenced letter, Commonwealth Edison (ComEd) Company discussed the pending change in shareholders for the MidAmerican Energy Holdings Company (MEHC). MEHC is the holding company of MidAmerican Energy Company (MEC), the non-operating owner of the Quad Cities Nuclear Power Station (QCNPS). We had reviewed the pending change and determined that the change did not constitute a transfer of license relative to the provisions of 10CFR 50.80 "Transfer of Licenses."

Notwithstanding that previous determination, and because of the time constraints involved in a 10CFR 50.80 license transfer, a completed 10CFR 50.80 license transfer application is provided in the attached letter. This application requests the approval, if required, to the indirect transfer of all of MEC's non-operating interest in the QCNPS operating license to MEC, as a wholly-owned subsidiary of MEHC, as a privately held corporation. Additional details supporting this license transfer application are included in the attached letter.
