SUBJECT: NRC INTEGRATED INSPECTION REPORT NO. 50-327/99-06 AND
50-328/99-06

Dear Mr. Scalice:

On October 9, 1999, the NRC completed an inspection at your Sequoyah 1 & 2 reactor facilities. The enclosed report presents the results of this inspection. The results of the inspection were discussed on October 20, 1999, with Mr. M. Bajestani and other members of your staff.

The inspection was an examination of activities conducted under your license as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas the inspection consisted of a selective examination of procedures and representative records, observations of activities, and interviews with personnel. Specifically, the inspection covered periodic resident inspections and scheduled inspections by three engineering specialists and a radiation specialist. There were no findings in any of the strategic performance areas.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Sincerely,

(Original signed by Paul E. Fredrickson)
