

November 5, 1999

LICENSEE: Duke Energy Corporation (Duke)

FACILITY: Oconee Nuclear Station, Units 1, 2, and 3

SUBJECT: SUMMARY OF DISCUSSIONS BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION (NRC) STAFF AND DUKE REPRESENTATIVES REGARDING THE CHILLED WATER SYSTEM FOR THE OCONEE LICENSE RENEWAL APPLICATION (LRA)

In the safety evaluation report (SER) for the Oconee LRA the staff created open item 2.2.3.4.3.2.1-1 regarding whether or not the chilled water system should be within scope of license renewal. In Duke's response to the SER open item dated October 15, 1999, it stated that it now commits to including the chilled water system within the scope for license renewal. Duke provided an integrated plant assessment for the chilled water system in its response to the SER open item.

Enclosure 1 contains questions that the staff had regarding scoping in accordance with 10 CFR 54.4 for the chilled water system. Enclosure 2 contains Duke's response to the questions. The staff believes that Duke's responses resolves the questions that the staff had regarding this aspect of scoping for the chilled water system.
