SUBJECT: **Reciprocity**

SUMMARY: Radiometrie was told when they filed their initial filing for 1999; that they could submit a client list but had to provide dates even if work dates were not established yet. Licensee did provide a date span of 1/5/99 to 6/30/99 for most of the job sites. As the year progressed, the licensee reached the 180 day limit. Mr. Jones submitted a clarification to delete dates previously approved (1/5/99 to 6/30/99) which had not been worked. This brought the total days of use to 8. Mr. Jones asked when they file next year, could they provide just a client list without committing to any dates if they have not been confirmed yet. I spoke with John Kinneman who said that they could do as requested as long as they realize that this situation is not covered in the regulations and the policy could change in the future.
