SCHEDULE - INDIAN POINT NUCLEAR GENERATING UNIT NO. 3  
(TAC NO. MA4359)

Dear Mr. Knubel:

Enclosed please find the revised proposed review schedule for the Improved Technical Specifications for Indian Point Unit No. 3 (IP3). We have already given a copy of this schedule to members of your staff.

Completion of the IP3 ITS review by this date will ensure resources are available for review of additional ITS applications anticipated to be received early next year. To assist in ensuring efficient staff resource allocation, we request that you notify us by letter should circumstances arise that prevent your meeting a milestone date; similarly, we will notify you of any situations affecting our ability to meet the enclosed schedule. We have discussed this schedule with Mr. George Wilverding of your staff.

The NRC staff appreciates your assistance in developing the enclosed schedule. Should you have any questions regarding this letter, or should you wish to make any further revisions to the proposed schedule, please contact me at (301) 415-1494 or Maggalean Weston of the Technical Specifications Branch at (301) 415-3151.
