Title: Account Reconciliation

Technical Monitor: Robert E. Rakowski, OCFO - (301) 415-7340  
Designated Alternates: Anthony C. Rossi, OCFO - (301) 415-7379  
Barbara K. Gusack, OCFO - (301) 415-6054

Background

Since the passage of the Chief Financial Officers Act of 1990, the Nuclear Regulatory Commission (NRC) must comply with new Federal financial accounting standards and reporting requirements. The Office of the Chief Financial Officer (OCFO) of the NRC requires financial management advice and guidance concerning accounting and audit issues that affect the NRC's annual financial statements, accounting policy, and operations. The OCFO also seeks assistance in the preparation of the annual financial statements and compilation documentation, account reconciliations, and other general financial and accounting support tasks.

Objective

The objective of this task order is to obtain accounting support to reconcile various general ledger accounts and to provide complete detailed capitalized property inventory listings.

Work Requirements

The contractor shall provide the qualified personnel to complete the following tasks:

1. Equipment Inventory (includes capital leases and contractor-held equipment)
  - a) Review and analyze payment documents (invoices) for leased and contractor-held equipment to identify each piece of equipment's property value. Maintain detailed accounting data (e.g., contract invoices, receiving reports) to sufficiently support the property value. (This data is to be entered into the general ledger property account balances.)
  - b) Prepare adjustments (e.g., excess equipment) to the general ledger property accounts as necessary and reconcile the ledger with the Division of Contracts and Property Management's (DCPM) property management equipment inventory system.

- c) Develop a depreciation schedule based on invoices and the useful life of the equipment to reflect the amounts to be charged on a monthly basis.

2. ADP Software Inventory

Determine the value of ADP contractor-developed and off-the-shelf software by direct review and analysis of payment documents (invoices) and maintain detailed accounting data sufficiently to support the general ledger ADP capitalized software account balances and the associated monthly amortization expense.

3. Leasehold Improvements Inventory

Determine the value of leasehold improvements by direct review and analysis of payment documents and maintain detailed accounting data sufficient for support of the general ledger capitalized leasehold improvement account balances and the associated monthly amortization expense.

4. Payroll

Review payroll data maintained in the payroll system for each pay period (commencing after the first pay period in November 1999) and reconcile with the payroll data recorded in the general ledger by account and object class.

5. Cash Reconciliation Review

Review the cash reconciliation report each month (commencing November 1, 1999) to ensure that balances are accurate and all payments are recorded.

6. Deposit Clearing Account Review

Review the deposit and clearing account reconciliation report each month to ensure that balances are accurate and all payments are recorded.

7. Travel Accounts

Perform a monthly review of the three general ledger travel accounts to ensure that the accounts are accurately stated. Review should be thorough enough to ensure the year-end compilation work papers can be accomplished without major adjustments.

8. Other General Ledger Accounts

- a) Perform a review and oversight of all general ledger accounts to ensure accuracy.
- b) Perform reviews of selected general ledger accounts that contain material account balances.
- c) Reviews should be thorough enough to ensure that year-end compilation work papers can be accomplished without major adjustments.

9. Task Order Management

The Contractor shall provide supervision of junior and senior accountants and review the general ledger account reconciliations and detailed financial inventory listings. Provide appropriate partner oversight of managers, work products, and deliverables.

Level of Effort

The level of effort is estimated at 180 hours for partner, 330 hours for manager, 340 hours for senior accountant, and 980 hours for staff.

Period of Performance

Modification No. 1 to Task Order No. 12 shall commence on award date of modification through January 31, 2000.
