SUBJECT: NRC INSPECTION REPORT NO. 50-483/99-16

Dear Mr. Randolph:

This refers to the inspection conducted on October 25-29, 1999, at the Callaway Plant facility. The enclosed report presents the results of this inspection. Following the exit meeting, additional telephonic conversations were held on November 8, 1999, between management representatives of this office and representatives of your staff.

Areas examined during this inspection included portions of your physical security program. We determined that these programs were properly implemented.

Based on the results of this inspection, the NRC has determined that two Severity Level IV violations of NRC requirements occurred. These violations are being treated as noncited violations (NCVs), consistent with Section VII.B.1 of the Enforcement Policy. These NCVs are described in the subject inspection report. If you contest the violation or severity level of these NCVs, you should provide a response within 30 days of the date of this inspection report, with the basis for your denial, to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington DC 20555-0001, with copies to the Regional Administrator, U.S. Nuclear Regulatory Commission, Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, the Director, Office of Enforcement, United States Nuclear Regulatory Commission, Washington, DC 20555-0001; and the NRC Resident Inspector at the Callaway Plant facility.
