SUBJECT: OPERATOR LICENSING RETAKE OPERATING TEST REPORT  
50-456/99302(OL); 50-457/99302(OL)

Dear Mr. Kingsley:

A Nuclear Regulatory Commission (NRC) examiner completed an initial operator licensing retake operating test at your Braidwood Nuclear Station on November 8, 1999. The license applicant's performance evaluation was finalized on November 17, 1999. The enclosed report presents the results of the test.

The examiner administered a retake operating test (administrative job performance section) to one reactor operator who failed the June 1999 operator license test. The applicant passed the retake test and was issued an operating license.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures to this letter will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this examination.

Sincerely,

Original Signed By David E. Hills
