SUBJECT: NRC INSPECTION REPORT NO. 50-285/99-16

Dear Mr. Gambhir:

On October 25 through 29, 1999, the NRC completed a safety inspection at your Fort Calhoun Station facility. The enclosed report presents the results of this inspection.

In this inspection, we evaluated the effectiveness of activities conducted under your license as they related to your implementation and control of permanent plant modifications and changes to license conditions and the licensing and design basis of your facility. We also reviewed your program for identifying and correcting problems within these areas. The inspection consisted of reviewing procedures and documentation of plant modifications and safety evaluations, interviews with personnel, and visual examinations of installed permanent plant modifications.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

A handwritten signature in black ink that reads "John Hallett".
