DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

Dear Secretary Meserve,

I am writing to ask the Nuclear Regulatory Commission to isolate radioactive wastes and materials and anything they contaminate, no matter what level. The radioactive legacy of atomic weapons and energy production should be isolated from the public and the environment.

The NRC should also extend the comment period on releasing radioactive waste into commerce to at least September 2000. This issue is too important to act hastily upon and it should be fully debated by the public. Several more months are necessary to engage American consumers and determine if they want their families put at risk by exposure to radioactive household items.

Thank you.
Sincerely,
Ellen C. Lock
