Richard Meserve, NRC Chairman
US Nuclear Regulatory Commission
Washington, DC 20555
Attention: Rulemaking & Adjudication Staff

OFFICE
FBI
ADJ.

Dear Chairman Meserve and Members of the Rulemaking and Adjudication Staff:

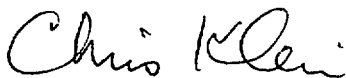

I am writing to entreat you to stop recycling radioactive waste into consumer products, and, at the very minimum, to extend the comment period on releasing radioactive waste into commerce by at least two years.

If this policy is not changed, the next time I purchase a car, bicycle, utensils, or cooking pot, I will not be purchasing American. I believe that consumers in other nations of the world will behave in the same way.

The recycling of nuclear waste in consumer products should be rejected on ethical grounds; if it isn't, it will be on economic ones.

Thank you for your time.

Sincerely,

Chris Klein
