To Whom It May Concern,

I am writing to you concerning the Department of Energy's program of releasing radioactive materials from its nuclear weapons facilities for recycling.

I deeply oppose the policy of Radioactive Clearance/Release/Recycling into Commerce.

I want the radioactive materials to be recaptured that have already been let out.

I am disturbed and angry about the health problems posed to humans and my environment by the Clearance/Release/Recycle Program and want it stopped.

I want radioactive waste to be dealt with in a more responsible way. I do not know what that way is. I do know that the Clearance/Release/Recycling into Commerce program is not it.

Sincerely,

Christopher Weiler
