Attention: Rulemaking and Adjudications Staff

Gentlemen:

As a senior citizen who has been exposed to large amounts of radiation necessarily for medical reasons I strongly condemn the idea of disposing of radioactive waste by recycling it into consumer products. The citizens of this country deserve to be completely free of such gratuitous radiation.

It is the responsibility of the government and the industries which produced the radioactive material to store it where no member of our society is ever exposed to it.

I call on you to let your conscience be your guide in this matter.

Sincerely,

Milton Shapiro
