Downers Grove, IL 60515

SUBJECT: QUAD CITIES LICENSED OPERATOR REQUALIFICATION TRAINING
PROGRAM EVALUATION, NRC INSPECTION REPORT 50-254/99019(DRS);
50-265/99019(DRS)

Dear Mr. Kingsley:

This refers to the biennial inspection of the licensed operator requalification training program conducted on October 18 through 28, 1999, at your Quad Cities Nuclear Generating Station, Units 1 and 2. The inspection used the risk informed baseline pilot inspection procedure 71111 (draft), "Reactor Safety - Initiating Events, Mitigating Systems, Barrier Integrity," Attachment 11, "Licensed Operator Requalification." The results of this inspection were discussed with Mr. G. Barnes and other members of your staff on October 28, 1999. The enclosed report presents the results of this inspection.

This inspection was an examination of activities conducted under your license as they relate to safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations of activities, and interviews with personnel. Specifically, this inspection focused on implementation of your licensed operator requalification training program.

No safety significant findings were identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

PDR ADock

O. Kingsley
