8. Communications between the NRC and the KVVWPCA or any agent acting on behalf of the KVVWPCA relating to (i) radioactive constituents in the wastewater discharged from the Apollo Facility or the Parks Facility to the KVVWPCA interceptor or sewer lines or KVVWPCA Facilities; (ii) the nature, amount or sources of radionuclides or other radioactivity in the influent to or effluent from the KVVWPCA wastewater treatment plant, the sludge generated by the KVVWPCA wastewater treatment plant, the ash resulting from incineration of such sludge, or the materials deposited in the KVVWPCA sewage sludge and ash lagoon; or (iii) requirements or proposals for the remediation of any such radionuclides or other radioactivity in sludge or ash resulting from incineration of such sludge..
