NOV 29 P 4:39

Dear Chairman Meserve,

I am writing to ask the NRC to serve the interests of the public instead of the nuclear industry. I have a one year old daughter and I DO NOT want her exposed to hazardous materials! Please prohibit the release of radioactive materials into commerce, landfills and incinerators. Identify, track and recapture the radioactive waste that has already been released from nuclear power and weapons facilities by federal and state regulators and give the public a lot more time to comment.

Sincerely,  
Stephanie Jennings
