Sec., U.S. Nuclear Regulatory
Attn.: Rulemaking and
Adjudication Staff
Washington, D.C. 20555

5910 440th St.
Pringhar, Ia 51245

Dear Secretary,

Is it true that you and the nuclear power and weapons industries are planning to dispose of radioactive waste by recycling it into consumer products?

No dose of radioactivity is acceptable! Radiation should be avoided as much as possible. It should not be increased through an industry-backed rulemaking!

Stop ^{the} selling of radioactive metals to scrap metal dealers.

Warren & Olive Wilson
