Dear Mr Caravelli

Thank you for your facsimile of 26 November 1999. I am happy to confirm the assurances of the Australian Government in respect of the larger quantity of UF6 enriched to 10% U-235, as specified in application XSNM3113, viz: 33.5 kg U as UF6 containing 3.358 kg U-235. In order to regularise the receipt we have increased the quantity of U-235 allowed under the Permit (PN144) issued to SILEX Systems by this Office.

Receipt of the material will be reported to the IAEA and accounted for to the USA pursuant to the Australia/USA Agreement Concerning Peaceful Uses of Nuclear Energy. Physical protection will be afforded the NM according to the recommendations of INFCIRC/225/Rev.4, now adopted as the Australian standard.

If you need any additional information please do not hesitate to contact me.

Best regards,

JOHN BELLINGER.
