

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR35090)

Yvette Raderman
323 W 11th St. Apt. 3E
New York, NY 10014-6232

11/29/99

Secretary,
US Nuclear Regulatory Commission
Washington, DC 20555

Dear Rulemaking and Adjudications Staff.

Radioactive waste should not be disposed of by recycling and should not be legalized. No dose of radiation from these materials is acceptable. Exposures to radiation should be avoided as much as possible not increased.

Think about people in your own family, your friends, your children. Your descendants and the risks to them of cancer and other possible health risks. The US Government is well aware of the links between exposure to radiation and cancer.

Please do not legalize the release of contaminated materials for recycling.

Yours truly
Yvette Raderman
