Subject: Dynalec NRC License information for Smoke Detector 63103-000

Dear Seung

I have put together the information I had promised you prior to the holiday. I have attached with this e-mail message, an 8 page .pdf file for your review. This information was sent to me by Mr. Mike Ashland (RSO for GS Building Systems). I believe this will answer the questions you had for me regarding the reference between the 6250B and a series 305 requirement.

If you have further questions or concerns, as always I can be reached at the below listed numbers or address.

Regards,

Michael J. Emhof (Radiation Safety Officer)
