

DOCKET NUMBER  
PROPOSED RULE PR 20  
(64FR35090)

99 DEC-2 P2 52

AD.

Nov. 23/99

Dear Chairman Meserve,

I'm writing my Comments on the  
"Release of Solids Materials" Issues Paper —  
in this way — because I do indeed feel  
we must draw a deep breath, reconsider  
with every ounce of goodwill and intelligence  
that we all can muster + NOT release  
nuclear materials into the greater environment  
as this proposal would engender. Please, sir  
remember "isolation" + containment" — only  
nuclear materials (+ other extremely toxic agents)  
need + require it — a democracy, no — a democratic  
republic needs open air, citizen participation +  
leaders who both listen + have the grace to  
reconsider. Please do both. — 2

Dear Chairman Meserve,

Wishing you the Gifts  
of Peace and Happiness  
this Christmas and  
throughout the New Year.

With every wish  
for a safe + happy  
2000 —

Judy Rock

in the bowels of Christ" that you maybe wrong.  
These are heavy heavy decisions you are asked  
to oversee — don't do it alone —
