Attention: Rulemaking and Adjudications Staff

Gentlemen:

Radioactive materials sold to scrap metal dealers by DOE!  
Radioactive materials being manufactured into new products!  
What is the thinking (?) behind this, other than greed?

Does not anyone in Washington have families and friends  
about which to be concerned about their exposure to radia-  
tion?

I am concerned about my children, grandchildren, their  
children, their children's children being exposed to  
radiation unknowingly and unnecessarily. No dosage of  
radiation is acceptable. Someone please have the courage  
to say no to this outrage.

Yours truly,

*Mary L. Finken*
