U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Ladies and Gentlemen:

Subject: Three Mile Island Nuclear Station, Unit-1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Request for Extension of NRC Order Approving Transfer of License for TMI-1 from
GPU Nuclear, Inc., et. al., to AmerGen Energy Company, LLC, dated April 12, 1999.

Pursuant to Paragraph III.10 of the above captioned Order, this letter requests an extension from December 31, 1999 to April 12, 2000 of the NRC Order approving the transfer of the TMI-1 license to AmerGen Energy Company, LLC. This extension is necessary to accommodate additional time for the Board of Public Utilities for the State of New Jersey (NJ-BPU) to review and act on GPU Energy's filing for approval of the sale of TMI-1. GPU Energy's divestiture of TMI-1 is required to be approved by the NJ-BPU in accordance with NJ Statute 48:3-7. The NJ-BPU deliberations and action may be completed prior to the current NRC Order expiration date of December 31, 1999, in which case, absent any actual or potential appeal, this request may be withdrawn.

GPU Nuclear, Inc., et. al., and AmerGen Energy Company, LLC have been diligent in seeking to obtain all required regulatory approvals from federal and state agencies. Based on the unanticipated length of the NJ-BPU review process, good cause exists for approving the requested 3-1/2 month extension of the Commission's Order.

The requested extension date of April 12, 2000 is one (1) year from NRC's initial issuance of the Order approving the transfer of the TMI-1 license from GPU Nuclear, Inc., et al., to AmerGen Energy Company, LLC, and is thus consistent with the duration of NRC approvals for other license transfers. This request for extension involves no material changes to the original TMI-1 license transfer application dated December 3, 1998 or the NRC Order and Safety Evaluation Report approving the TMI-1 transfer dated April 12, 1999, nor have any material changes occurred in the facts and circumstances pursuant to which that application was made or pursuant to which that Order and Safety Evaluation Report was issued.
