Vice President - Nuclear
FirstEnergy Nuclear Operating Company
P. O. Box 97, A200

SUBJECT: PERRY INSPECTION REPORT 50-440/99011(DRP)

Dear Mr. Wood:

On November 15, 1999, the NRC completed a routine safety inspection at the Perry Nuclear Power Plant. The enclosed report presents the results of that inspection.

During this inspection period, the overall conduct of activities at the Perry facility continued to be conservative and focused on safety. Engineering department personnel continued to provide good support for operations, maintenance, and surveillance tests. Plant activities were well organized and effectively coordinated. However, minor attention-to-detail type issues were identified in the operations department, which was a continuation of similar issues from the previous inspection period.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Sincerely,

/s/ T. J. Kozak

Thomas J. Kozak, Chief
