SUBJECT: CHANGES TO PHYSICAL SECURITY AND TRAINING AND QUALIFICATION
PLANS

Dear Mr. Terry:

This letter acknowledges receipt of your letters (TXX-99255 and TXX-99256) dated October 29, 1999, which transmitted Revision 31 to the Comanche Peak Steam Electric Station Physical Security Plan and Revision 11 to the Training and Qualification Plan, respectively, under the provisions of 10 CFR 50.54(p).

Based on your determination that the changes do not decrease the effectiveness of your Physical Security Plan and Training and Qualification Plan, and after limited review of the changes, no NRC approval is required in accordance with 50.54(p). We did not identify any violations of 10 CFR 50.54(p) during our review. Implementation of these changes will be subject to inspection to confirm that the changes have not decreased the effectiveness of these security plans.

During our review of Revision 11 to the Training and Qualification Plan, it was identified that (added) Paragraph 1.3.3 allowed the security manager to approve "equivalent methods" of complying with the requirement of this plan. On November 29, 1999, D. Alps of your staff advised D. Schaefer of this office that the inclusion of "equivalent methods" applied only to the selection of paper targets employed during weapons (rifle) qualification and that this would be clarified in a subsequent change to the training and qualification plan.

The enclosures to your letter contain Safeguards Information as specified in 10 CFR 73.21 and are being withheld from public disclosure.

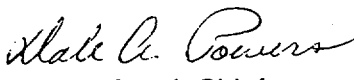

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.
