SECRETARY  
US NUCLEAR Regulatory  
ADDRESS WASHINGTON D.C  
20555  
CITY STATE ZIP

Nov 27, 1999

Dear Sirs,

DISPOSING of radioactive waste by recycling into consumer products will increase radiation exposure resulting in a multitude of various Health consequences. With all the daily radiation that we are exposed to, we must avoid deliberate doses from everyday consumer products. No DOSE is acceptable -

Please understand that radiation exposure from industry backed rulemaking products is a nightmare. The nuclear power + weapons industries, the Dept of Energy + the Nuclear Regulatory Comm MUST store radioactive waste responsibly, never give it to people through consumerism.

Respectfully,  
Mrs L. Katen

Mrs. Lorraine Katen  
Mr Samir Katen
