

December 2, 1999

Mr. Oliver D. Kingsley  
President, Nuclear Generation Group  
Commonwealth Edison Company  
ATTN: Regulatory Services  
Executive Towers West III  
1400 Opus Place, Suite 500  
Downers Grove, IL 60515

SUBJECT: NRC INSPECTION REPORT 50-373/99017(DRS)

Dear Mr. Kingsley:

On November 3, 1999, the NRC completed an inspection at your LaSalle Nuclear Generating Station, Unit 1. The enclosed report presents the results of that inspection. The inspection examined activities related to your inservice inspection (ISI) program.

Areas examined are identified in the report. Within those areas, the inspection consisted of a selective examination of procedures and representative records, and interviews with personnel. The objective of the inspection effort was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements.

For the areas inspected, NRC and ASME Code requirements were met and no violations or deviations were identified. Implementation of the portions of the ISI program inspected appeared to be effective.

At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report. In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original Signed By John M. Jacobson

John M. Jacobson, Chief  
Mechanical Engineering Branch
