DOCKET NUMBER  
PETITION RULE PRM 26-2  
(64FR67202)

Dear Mr. Secretary,

*This letter is in support of the proposed rules to prevent a nuclear power plant accident. Not to do so would be unconscionable once the question is before us.*

*Should these rules be disapproved and an accident occur as a result,,the lives of those responsible would be changed for the worse forever. Please do the next right thing.*

Best Wishes,

*Betty Streett*
