Facility Operating License Nos. NPF-11 and NPF-18  
NRC Docket Nos. 50-373 and 50-374

Subject: Extension of the Due Date to Respond to Inspection Report  
50-373/374-99020

Reference: NRC Inspection Report 50-373/99020(DRS); 50-374/99020(DRS),  
dated November 2, 1999.

The referenced inspection report included two Non-Cited Violations (NCVs) of NRC requirements, and required a response within 30 days of the inspection report (i.e., by December 2, 1999) if Commonwealth Edison (ComEd) Company contests the violation or severity levels of the NCVs. In a phone conversation between Mr. John Jacobson, NRC, and Mr. Robert Brady, ComEd, an extension of the response due date to December 21, 1999 was agreed upon. This letter confirms this agreement.

Should you have any questions concerning this letter, please contact Mr. Robert R. Brady, Jr., Director LaSalle Licensing and Compliance, at (630) 663-7205.
