Subject: NRC Public Hearings-Seeking Healthy Living Environemnt

Dear Honorable Judge Bollwerk III:

I am very interested in relocating to the Raleigh area and have been researching to help make my decision. The other night I came across some information about the NRC Public Hearings and the proposed CP&L expansion. I was so shocked to see an area with so much to offer being put at such risk. My attraction to the Triangle area is based on the quality of life that exists there. The educational institutions, topography & location of the Triangle area, weather and low crime rate. Basically a city that offers everything that I want for myself and my son, except for one thing. I am environmentally conscious and I feel that our health and our environment will be threatened if we were to move there. I am attracted to nature and the wonders of life, things that many people take for granted. We need to take care of our environment now to ensure the well-being of future generations.

I came across one article that mentioned something about high level waste being at the site too- I am concerned about this.

I hope that this matter is resolved with the concern of people and not big business.

Jamie Alison

GARNER CHAMBER OF COMMERCE

Serving The Most Promising Corner In The Triangle

Date: November 29, 1999

To: Office of the Secretary

Re: Request to Speak

I hereby request permission to speak Tuesday, December 7, 1999, 7:00 - 9:30 p.m. on the issue of CP&L's Harris spent fuel storage hearings.

Thank you,

Dale M. Bouldin
President
Garner Chamber of Commerce
