SUBJECT: RESPONSE TO REQUEST FOR MOLYCORP PLANT MAP

Dear Mr. Grego:

I am responding to your letter to LeRoy Person of my staff, dated November 8, 1999. In that letter, you requested a copy of the Molycorp plant map referred to during the September 29, 1999, meeting at Molycorp's Washington, PA, facility.

The meeting, to which you referred, involved a discussion of several maps. In response to your request we have enclosed two maps. Enclosure 1 is a copy of Figure 3-1 from "Washington, PA, facility Decommissioning Plan, Part 1 Revision," which was originally obtained from the Oak Ridge Associated Universities' (ORAU) 1985 Report and also appears in the 1995 "Site Characterization Report for License Termination of the Washington, PA, facility." This map identifies areas of elevated contact radiation levels discovered in ORAU's 1985 study and also identifies the name/number of all of the buildings on the Washington site. Enclosure 2 is a larger map, which also comes from Molycorp's "Site Characterization Report for License Termination of the Washington, PA, facility," contains the locations of soil borings and monitoring wells at the Washington site.
