**PROGRAM MANAGEMENT INFORMATION: TECHNICAL CONFERENCING FORUM -
REQUEST FOR COMMENTS ON DRAFT NUCLEAR WASTE SAFETY CHAPTER OF THE
STRATEGIC PLAN (SP-99-077)**

The U.S. Nuclear Regulatory Commission (NRC) is in the process of developing the FY 2000-2005 Strategic Plan. The Plan covers strategic arenas in Nuclear Reactor Safety, Nuclear Materials Safety, Nuclear Waste Safety and International Nuclear Safety Support.

A draft Nuclear Waste Safety chapter which is undergoing Commission review has been uploaded to the Technical Conference Forum (TCF). Your review and comment are invited on this draft by December 31, 1999. The TCF can only be accessed by the Agreement States having a unique user name and password, which were last updated via All Agreement States letter SP-99-027. Please provide any comments on the draft directly to Daryl W. Kade, Division of Planning, Budget, and Analysis, Office of the Chief Financial Officer, at 30-415-7326 or by Internet at DWK@NRC.GOV with a copy to the point of contact listed below. We expect to complete a draft Nuclear Materials Safety chapter in December 1999. At that time, we will also invite your review and comment on that chapter. Following comments, we will align the Waste and Materials chapters to assure they are congruent.

We plan to complete the entire Strategic Plan and publish it for public comment in the spring, 2000. During this time, we will invite you to a meeting to discuss any comments that you may have on the Strategic Plan.

Due to its pre-decisional nature, this document is exempt from public disclosure under NRC rules. We request that you limit distribution to your staff and not release the document publicly. If this document is released, please inform me or the individual named below within 24 hours.
