U.S. Nuclear Regulatory
Rulemaking and Adjudication Staff
11-30-99
Rockville, MD

Sirs - 11-30-99
Disposing of radioactive waste
by recycling it in consumer products is
unthinkable. Insane. A violation
of the public interest and the public trust.
DOE is already selling radioactive
scrap to metal dealers. It is being made
into products without warning labels.
I'm not naive about government but
I wouldn't expect this terrible thing.
Subject!
Darrell Wells
