Office of  
Public  
Affairs  
ADU

Attention John Rogge,- If you can't find him, please find me an answer. Are you guys completely crazy? I know the answer... but this is beyond madness. Are you really proposing to recycle rad waste in products? Please correct me if I am wrong? We at Safe Legacy are very concerned about this and see it as hazardous for our future. Get back to me asap. Thanks, Michele
