SUBJECT: CHANGE OF RADIATION SAFETY OFFICER ON LICENSE STB-527

Dear Mr. Baker:

This is in response to your letter dated October 22, 1999, requesting a change in the Radiation Safety Officer (RSO) listed on License STB-527. The Nuclear Regulatory Commission's (NRC's) staff has processed a previous license amendment request, dated March 12, 1998, from Dow Chemical Company (DOW), to change the RSO listed on the license from Mr. Kenneth Baker to Mr. David Hunter. Mr. Hunter's training and experience was reviewed in accordance with 10 CFR 40.32(b), and the guidance in the NRC Regulatory Guide 10.4, "Guide for the Preparation of Applications for Licenses to Process Source Material."

The NRC staff has reviewed your current request dated October 22, 1999, to include Ms. Maria Sandow as the RSO in License STB-527, instead of Mr. Hunter, as previously proposed. Based on the staff's review, we are providing the enclosed comments. We request you to provide your response to our comments within 30 days from the date of this letter.

If you have any questions concerning this letter, please contact Sam Nalluswami of my staff at (301) 415-6694.

Sincerely,
