Subject: Re: DOW CHEMICALS - RAI ON RADIOLOGICAL HEALTH & SAFETY PLAN

Sam - Ed is at Fermi 1 and not likely to respond; you have my concurrence.

Bruce/Ed:

Please review the attached RAI on the Radiological Health & Safety Plan (RH&SP) from Dow Chemicals and provide your input or concurrence. Robert Nelson, Richard Clement (HP) and myself have concurred on this. I am giving to Larry Camper (Branch Chief) for his review and concurrence. The ticket was due to-day and I extended it to Friday, December 3, 1999. Ed Kulzer already reviewed the RH&SP.

The enclosed DRAFT Safety Evaluation Report is for inhouse use only.

If you have any questions, please call me on 301-415-6694. Thank you very much.
