Mr. Lyall Johnson  
Chief, Licensing Branch  
Division of Civilian Applications  
U. S. Atomic Energy Commission  
Washington 25, D. C.

Dear Mr. Johnson:

The Nuclear Power Group presently holds license number C-3577, dated September 10, 1956, authorizing the purchase of one-half pound of refined source material (natural uranium metal).

This license expires on October 1, 1957, and we have purchased the amount of material authorized by the license from Metals & Controls Corporation, Attleboro, Mass. Since our program is continuing, we require additional material and would like to either extend or renew our license to cover the purchase of 3 kilograms of natural uranium metal foil.

We would appreciate your help in providing us with the necessary forms and information so that we may obtain the required material for the continuation of our program.

Very truly yours,

RAYTHEON MANUFACTURING COMPANY
