

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

SAFETY EVALUATION REPORT  
Model No. NUHOMS® MP187 Transportation Package  
Certificate of Compliance No. 9255  
Revision No. 3

By application dated December 18, 1998, as supplemented May 20, 1999, and October 1, 1999, Transnuclear West Inc, requested approval to include failed fuel as an authorized package content and to include alternate fuel parameters for the Model No. NUHOMS® MP187 transportation package. The October 1, 1999 request was to replace Drawing No. NUH-05-4004, Revision 11 with Drawing No. NUH-05-4004, Revision 12.

In Certificate of Compliance No. 9255, Revision 2, Condition No. (3), Drawing No. NUH-05-4004, Revision 11 was inadvertently not replaced with Drawing No. NUH-05-4004, Revision 12. The Certificate of Compliance is being amended to correct this typographical error.
