

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

December 8, 1999

MEMORANDUM TO: Nuclear Document System (NUDOCS)

FROM: Thomas J. Nicholson, Senior Hydrogeologist
Radiation Protection, Environmental Risk and Waste Management Branch
Division of Risk Analysis and Applications
Office of Nuclear Regulatory Research

SUBJECT: FINAL LETTER REPORT ON "INFORMATION ON RECYCLED SOIL USAGE.." FROM THE NATIONAL AGRICULTURAL LIBRARY UNDER INTERAGENCY AGREEMENT RES-99-005 (JCN Y6227)

Attached for your processing are an electronic and printed copies a final letter report entitled, "Information on Recycled Soil Usage for Clearance from NRC Licensed Facilities: Final Report." The subject report was developed under an Interagency Agreement (Number RES-99-005) between the National Agricultural Library of the U.S. Department of Agriculture / Agricultural Research Service, and NRC's Office of Nuclear Regulatory Research. Specifically the letter report provides results of a literature search for identifying technical bases, principally citable references, on soil recycling/reuse in the United States.

The attached letter report is provided for information purposes only and does not constitute NRC approval or agreement with the information contained herein.
