Re: CO:I:EPR

Dear Mr. Kirkman:

In a telephone conversation on November 19, 1963, Mr. E. P. Resner pointed out that our letter of November 12, 1963 only stated that we had requested a proposal for providing "appropriate radiological safety training that will facilitate our utilization of these by-product materials".

You may be assured that we fully intend to proceed with such training as soon as possible.

Further, we also expect to apply for a change in license concurrently with the training of our personnel.

Very truly yours,

A. B. Keller /v0
Works Manager
