Dear Mr. Pittiglio:

To facilitate the termination of the Jefferson Proving Ground (JPG) license (No. SUB-1435, Docket No. 040-08838), we have prepared a revised Decommissioning Plan for JPG (two copies are attached at enclosure 1). The new plan reflects the revised license termination rule.

A copy of the last Environmental Radiation Monitoring (ERM) report for the survey done in April 1999 is attached at enclosure 2. The information in this and all previous ERM reports demonstrates that the area is suitable for release in accordance with the criteria for decommissioning in 10 CFR 20, subpart E.

Please contact Mr. Robert A. Aaserude at (410) 278-1308 for additional information in regard to this action.

Sincerely,

Dal M. Nett
