Subject: WHAT??

'99 DEC 13 AS:41

To Whom it May Concern,

I was listening to public radio this evening and learned that nuclear waste materials were being considered to be implemented into the public sector via monetary change as well as jewelry and fashion items. I am astonished that such an avenue for discarding nuclear waste is even being considered. Nuclear waste can still pose a threat to biological tissues, and I would hope that the government would not pursue an endeavor that would threaten the public's health. Please recant this proposal.
